Raspberry Pi 4 Model B 2GB Board

£56.50

Product Overview

Raspberry Pi 4 Model B is the latest product in the popular Raspberry Pi range of computers. It offers ground-breaking increases in processor speed, multimedia performance, memory and connectivity compared to the prior-generation Raspberry Pi 3 Model B+, while retaining backwards compatibility and similar power consumption. For the end user, Raspberry Pi 4 Model B provides desktop performance comparable to entry-level x86 PC systems. This product's key features include a high-performance 64-bit quad-core processor, dual-display support at resolutions up to 4K via a pair of micro-HDMI ports, hardware video decode at up to 4Kp60, 2GB of RAM, dual-band 2.4/5.0GHz wireless LAN, Bluetooth 5.0, Gigabit Ethernet, USB 3.0 and PoE capability (via a separate PoE HAT add-on). The dual-band wireless LAN and Bluetooth have modular compliance certification, allowing the board to be designed into end products with significantly reduced compliance testing, improving both cost and time to market.

- Broadcom BCM2711, quad-core Cortex-A72 (ARM v8) 64-bit SoC @ 1.5GHz
- 2GB LPDDR4 SDRAM
- 2.4GHz and 5.0GHz IEEE 802.11b/g/n/ac wireless LAN, Bluetooth 5.0, BLE
- True Gigabit Ethernet
- Requires 5.1V, 3A power via USB-C or GPIO
- 2x USB 3.0 ports, 2x USB 2.0 Ports
- Fully backwards compatible 40-pin GPIO header
- 2x Micro HDMI ports supporting up to 4K 60Hz video resolution
- 2-lane MIPI DSI/CSI ports for camera and display
- 4-pole stereo audio and composite video port
- MicroSD card slot for loading operating system and data storage
- PoE (Power over Ethernet) enabled (requires PoE HAT)

Applications

Embedded Design & Development, Hobby & Education, IoT (Internet of Things), Communications & Networking

1080p HD Car Dash Cam with 3" Display

£56.99

Product Overview ^

The RoadRunner 330i records 1080p, full HD videos and takes images up to 12MP. Thanks to motion detection technology, cyclic recording and G-Sensor the device is able to capture even the smallest details of your trip.

- High quality, 1080p HD video with pure sound and crystal clear images
- Playback captures video instantly on the 3" screen
- Not necessary to insert a memory card into an external device - prove your innocence in seconds whilst remaining on the road
- High optical quality, 12MP images made with a 4-element, sharp lens
- Improved, NT96223 chipset ensures recording of all events without fail
- With motion detection video shooting starts only when detecting a new movement in the frame
- Allows you to save to memory card (not supplied) for a longer video
- With a wide viewing angle the video recorder captures even more details on the road
- G-Sensor detects collision, hard breaking or acceleration and the camera automatically marks the current footage for safekeeping
- Powered by built-in, rechargeable battery or from car power adaptor
